

Dear Neighbour,

Subject: Weekly Sandwich Street Activities Update – May 6, 2024

As part of the Gordie Howe International Bridge project, just over three kilometres of Sandwich Street will be reconstructed by Bridging North America. Construction is now underway on Sandwich Street with road reconstruction and watermain installation activities occurring in various locations. To help keep the community informed on activities planned for Sandwich Street, the project team will provide weekly email updates.

A summary of the planned construction activities for the week of May 6, 2024 is below. Please keep in mind that construction is subject to weather and supply chains. Activities may shift as needed.

Road Reconstruction Work - McKee Road to Ojibway Parkway Intersection:

Anticipated activities:

- Placement and curing of concrete pavement (southbound lanes).

This work requires a temporary road closure. Access to businesses is being maintained.

Road Reconstruction Work – Ojibway Parkway Intersection to Essex Terminal Railway (ETR) Tracks

Anticipated activities:

- Road, driveway and sidewalk removals
- Road cut and excavation in the southbound lanes
- Placement of granular road base in the southbound lanes followed by subdrain and catch basin installation

Two-way traffic will be maintained throughout, with construction occurring between 7:00 am and 7:00 pm.

Sandwich Street Watermain Work:

Bridging North America is undertaking watermain installation on Sandwich Street between Chappell Avenue and Chewett Street in advance of road reconstruction. Construction activities are taking place in the following segments:

- Chappell Avenue to Prince Road
- Prince Road to South Street
- South Street to Brock Street
- Brock Street to Chewett Street

This work requires rolling lane closures, temporary parking restrictions and some access restrictions to side streets throughout this stretch of Sandwich Street. Through the use of flaggers, sections of Sandwich Street will be reduced to one lane of two-way traffic during the hours of 7:00 am to 7:00 pm. Two lanes will reopen to traffic during overnight hours. During construction, access to adjacent residences, businesses and pedestrian walkways will be maintained. As sections of work are completed, the roadway will reopen to two lanes of traffic.

Anticipated activities:

- Pressure testing and flushing is anticipated to begin in select segments the week of May 13 with service connections to residents and businesses to follow. ENWIN Utilities will coordinate these connections directly with affected properties.
- Watermain installation between South Street and Brock Street is nearing completion, with work anticipated to start between Brock St and Chewett Street.

Temporary lane closures may be required to support this work. Flaggers will be out to help direct traffic on Peter Street and on Russell Street between Hill Avenue and Watkins Street as needed.

Your feedback is important to us as we move forward with this work and will help the team lessen the inconvenience of construction where possible. Please contact us at 1-844-322-1773, info@wdbridge.com or visit the Sandwich Community Office located at 3201 Sandwich Street on Tuesdays and Thursdays between 10:00 a.m. – 4:00 p.m. should questions or concerns arise.
