

Dear Neighbour,

Subject: Last Sandwich Street Activities Update – January 9, 2025

Funded through the Gordie Howe International Bridge project, just over three kilometres of Sandwich Street was reconstructed by Bridging North America. Bridging North America began work to reconstruct Sandwich Street from the Canadian Port of Entry to the Rosedale Avenue roundabout in September 2023 and completed all major work in late December 2024. This work included road and sidewalk reconstruction, storm sewer installation, the addition of new cycling infrastructure and enhanced streetscaping within the Sandwich BIA district.

Thank you to all of the residents and businesses in the Sandwich community for your patience and support throughout the construction process.

To wrap up the project team's construction efforts, one additional utility relocation will also be undertaken at the Mill Street intersection and final landscaping/streetscaping details will be completed in the spring. Sidewalks located at the Mill Street intersection will remain closed until pavement work is complete in this area.

With limited updates anticipated over the coming weeks, these weekly emails will no longer be issued. Please contact us at 1-844-322-1773, info@wdbridge.com or visit the Sandwich Community Office located at 3201 Sandwich Street on Tuesdays and Thursdays between 10:00 a.m. – 4:00 p.m. should questions or concerns arise.

Thank you again for your ongoing support. Wishing you all the best in 2025.
