

PONT INTERNATIONAL **Gordie Howe** INTERNATIONAL BRIDGE

Good afternoon,

Here are a few things we wanted you to know about:

Public Information Meetings

Windsor Detroit Bridge Authority (WDBA) and Bridging North America (BNA) will hold **Public Information Meetings** on Wednesday, September 24, 2025, in Detroit, Michigan and Thursday, September 25, 2025, in Windsor, Ontario.

The meetings will provide the latest updates on Canadian and US construction, planned operations and the implementation of the Community Benefits Plan. Presentations will begin at 3:30 p.m. and 5:15 p.m.

PUBLIC INFORMATION MEETINGS

PONT INTERNATIONAL
Gordie Howe
INTERNATIONAL BRIDGE

Wednesday, September 24, 2025
3:00 p.m. - 6:30 p.m.
Detroit Community Office
7744 W Vernor Highway
Detroit

Thursday, September 25, 2025
3:00 p.m. - 6:30 p.m.
Mackenzie Hall
3277 Sandwich Street
Windsor

Questions will be accepted in advance, during, and following the event. To submit your questions in advance, email us no later than September 15, 2025, at info@wdbridge.com.

August Community Newsletter

The latest Community Newsletter is now available on our **website**. Read about the Intelligent Transportation System on the bridge, Green Street reconstruction, community involvement, our next public information meetings and more.

Gordie Howe International Bridge

MOMENTUM

Quarterly Newsletter issued by: Windsor-Detroit Bridge Authority
August 2025

The Gordie Howe International Bridge project between Windsor, Ontario and Detroit, Michigan will help move goods and people more efficiently at this important trade gateway. Managed by Windsor-Detroit Bridge Authority (WDBA) and working in collaboration with the State of Michigan, the project is being delivered through a public-private partnership (P3) which will see Bridging North America (BNA) design, build, finance, operate and maintain the bridge.

Have a question about the Gordie Howe International Bridge project?

Meet with our team at our Sandwich Community Office at 3201 Sandwich St. or Southwest Detroit Community Office at 7744 W Vernor Hwy.

Office hours can be found on GordieHoweInternationalBridge.com.

Call us toll-free at 1-844-322-1773, email us at info@wdbridge.com, or message us through any of the project social media accounts.

OUR INTELLIGENT TRANSPORTATION SYSTEM

Providing efficiencies at the Windsor-Detroit trade gateway is an important part of the Gordie Howe International Bridge project. The use of Intelligent Transportation Systems (ITS) is one way that efficiencies will be achieved. ITS includes advanced technologies that use electronics, computers, communication and sensing devices. The project's ITS components will support the needs for traffic operation and management for the bridge, the two ports of entry and the connection to I-75. A comprehensive ITS design allows the project's traffic management systems to fit seamlessly with the approach roads in Ontario and Michigan.

Examples of ITS on the project:

- Advanced Traffic Management System (ATMS)
- Traffic Surveillance System
- Vehicle Detection and Classification System
- Travel Time Detection System
- Lane Control System
- Dynamic Message Sign System
- Connected Vehicle System
- Road Weather Information System (RWIS)

The project's Traffic Management Center is located at the Canadian Port of Entry and includes a traffic surveillance system to monitor traffic conditions by collecting data like speed and volumes for different vehicle classifications and also providing alerts when incidents occur. The data collected can also be used to forecast future traffic impacts as well as crossing usage statistics.

Vehicle detectors at toll lanes and primary inspection lanes provide queue length information to assist lane operations. To help calculate accurate travel and wait times, Bluetooth detectors collect individual vehicle entry and exit time stamps when it passes a specific location.

Road Weather Information Systems monitor pavement and weather

Michigan Interchange and US Port of Entry Gallery and Flyover

Here's new flyover footage and a **photo gallery** of Michigan Interchange work. Work is steadily advancing on the ramps connecting I-75 to the US Port of Entry with line painting and signage installation. All five pedestrian bridges are nearing completion.

We've also posted a new **photo gallery** and flyover video of the US Port of Entry. Updates to the 167-acre US site include landscaping, signage, completion of the Jefferson barrier wall, pavement markings, parking spots and light poles.
